This project is about backend features which will involve 3 levels

1. Admin
2. Reviewer
3. Editorial board
4. Authors

A payment API integration which will be supply by me

The 4 will have a single interface to login but communicating with different database like what you see on this link: http://ms.academicjournals.org/authors/login

Admin Features

1. It creates /edit/delete account for Reviewer and Editorial board members
2. It receive the manuscript submitted by the author via the author's account and share same manuscript with any or all the editorial board members and/or the Reviewers
3. It update information on the manuscript submitted by the author in the following ways: Review/Accepted/Suspended/Published
4. It will be able to set submission period for manuscript shared with Reviewer and editorial members (once this deadline expire, editorial member and reviewer won't be able to submit the document, except it is extend by Admin itself)
5. It will create/modify/delete types and amount of payment to be made by authors
6. It will be able to search and see all successful payment history of all authors.
7. Be able to send message to the authors

Editorial members and reviewer Features

a. Edit profile e.g. password, mobile phone etc
b. Download manuscript shared by Admin
c. See deadline set by Admin to submit edited manuscript with authors info (once this deadline expire, editorial member and reviewer won't be able to submit the document)
d. Upload and submit edited manuscript to the admin with authors information and manuscripts title, and details

Author's features

Author's expected dashboard and features can be seen via this link: http://esnjournal.com.ng/dashboard/

Author is expected to register FREE to create account via this link: http://esnjournal.com.ng/registration/ (this is expected to communicate with the backend you are to create for the purpose of the author's account and login based on information collected).

1. Should be able to Edit profile
2. Submit manuscript to the Admin with all necessary details, such as title, authors etc
3. See is series of submitted manuscript with the date submitted
4. See details and state of its manuscript as indicate in the dashboard on http://esnjournal.com.ng/dashboard/

THIS IS TEXT

THIS IS TEXT

5. See and Make various types of payment and amount as published by the admin and indicate the manuscript being paid for
6. See message history from the admin
7. Get email notification of any task about /on its account by the admin
8. See payment history, indicating type of payment, amount paid and the date

Author's agreement and refund policy are contents that it generalize for all registered authors and will be supply by me
